**Transmission Jack 500kg; Telescopic Vertical**

- For assembling and disassembling engines, gearboxes and rear axles.
- Suitable for mounting of automatic transmissions.
- Height approx. 880 to 1770 mm
- 4 ball bearing caster wheels
- Compact construction, lightweight
- Fast lifting due to hydraulic foot pedal
- High lifting range

Swivel Base available separately (997-1-WW)

**Flexible Socket for Suspension Bolts**

- 3/8” Drive
- Designed for removing the top of Macpherson strut mounts commonly found on Audi, SEAT, Skoda and VW vehicles.
- The fixtures are found in a confined area which makes access awkward via traditional methods. Although in a confined area the nuts are prone to corrosion and damage which means replacement and servicing is often needed.
- The factory OEM nuts can either be 6 or 8 point, due to the dual sided socket 4130-WW can accommodate both.
